Understanding the fundamentals of web development

Are you passionate about technology and eager to dive into the world of web development?

Our Summer School in web development is the perfect opportunity for you to learn the essential skills needed to build dynamic and responsive websites! Work on real-world projects through a hands-on pedagogy with experts in the field. The Epitech 2025 Summer School will bring the best of innovation, creativity and passion for technology to offer you a unique experience in two campuses/ two cities! This year's Summer School theme revolves around your own motivations and needs. During the 3-week course, you will create your website from scratch, followed by an international Web Jam in Barcelona!

Agenda outline

WEEK #1:

Starting in Paris for understandings the basics of web development (HTML, CSS, and JavaScript), connect with other international students and design your own website for business or leisure purposes.
